Contents Volume 62, 2001

Effect of chromium(VI) on electrocrystallisation of cobalt from sulphate solution
N. Pradhan, U.N. Dash and S.C. Das 1
Characterization and chemistry of formation of a magnesium hydroxide-type scale obtained from the tungsten process
R.P. Singh 11
Oxygenated chloride-assisted leaching of copper residue
T. Deng, Y. Lu, Z. Wen and D. Liu 23
Kinetic analysis of Zn(II) removal from water on a strong acid macroreticular resin using a limiting bidisperse pore model
A.M.S. Oancea, E. Pincovschi, D. Oancea and M. Cox 31
Extraction and separation of gold (I) cyanide in polyethylene glycol-based aqueous biphasic systems
T. Zhang, W. Li, W. Zhou, H. Gao, J. Wu, G. Xu, J. Chen, H. Liu and J. Chen 41
Mass transfer mechanism of the carrier-facilitated transport of uranium(VI) across 2-ethylhexyl phosphonic acid mono-2-ethylhexyl ester immobilised liquid membranes
C.S. Kedari, S.S. Pandit, S.K. Misra and A. Ramanujam 47
Solid–liquid mass transfer limitation of ferrous iron in the chemical oxidation of FeS_2 at high redox potential
M. Boon and J.J. Heijnen 57

Short communication
The mechanism of 'direct' and 'indirect' bacterial oxidation of sulphide minerals
M. Boon 67

Editorial
M.J. Slater 71

Effects of a water-extraction process on heavy metal behavior in municipal solid waste incinerator fly ash
K.-S. Wang, K.-Y. Chiang, K.-L. Lin and C.-J. Sun 73
Oxidative precipitation of arsenic(III) with manganese(II) and iron(II) in dilute acidic solution by ozone
T. Nishimura and Y. Umetsu 83
Thiocyanate removal from saline CIP process water by a rotating biological contactor, with reuse of the water for bioleaching
M.B. Stott, P.D. Franzmann, L.R. Zappia, H.R. Watling, L.P. Quan, B.J. Clark, M.R. Houchin, P.C. Miller and T.L. Williams 93
Studies on application of polyacrylate anion-exchangers in sorption and separation of iminodiacetate rare earth element(III) complexes
H. Hubicka and D. Kołodyńska 107
Studies on recovery of copper, nickel, cobalt and molybdenum values from a bulk sulphide concentrate of an Indian uranium ore
K. Anand Rao, R. Natarajan and N.P.H. Padmanabhan 115
Electrobioleaching of polymetallic ocean nodules
A. Kumari and K.A. Natarajan 125
Infrared spectroscopy of metal carboxylates I. Determination of free acid in solution
E.G. Palacios and A.J. Monhemius 135
Recovery of vanadium from a previously burned heavy oil fly ash
S. Vitolo, M. Seggiani and F. Falaschi 145
The effect of certain surfactants on the acid and neutral leaching of zinc calcine obtained by roasting of sphalerite concentrates
M. Karavasteva 151
Leaching of manganese from low-grade manganese ore using oxalic acid as reductant in sulphuric acid solution
R.N. Sahoo, P.K. Naik and S.C. Das 157

Mechanochemical processing of enargite (Cu_3AsS_4)
N.J. Welham 165
Preparation of a magnesium hydroxy carbonate from magnesium hydroxide
A. Botha and C.A. Strydom 175

Short communication
Adsorption of copper on manganese nodule residue obtained from NH_3–SO_2 leaching
R.N. Sahoo, S.C. Das, B.R. Reddy, P.C. Rath and R.P. Das 185
